Dear Masons,

Thank you for the books. It was very generous of you to send us all of those magnificent books that all of us can't wait to read. My favorite book of all time has to be The Outsiders by S.E Hinton. I love that book because it has all my favorite features. It is a thriller action and its emotional like first The Greasers are enemies of the Socs and that the thriller Because The Greasers are fighting against the Socs so they won't take their turf. It's action because one of the Greasers killed one of the Socs so they went to the fields far away. Also, it is emotional because Jonny (One of the G) Died and Dally (one of the G) died too and they left Ponyboy alone. That's why it's my all time favorite book. Thank you for your generosity.

Sincerely,

Miguel Morales

Dear Masons,

Thank you for the books you've donated to us. My favorite is Star Darlings! I have the full series and you donated the last one I needed. My favorite is Libby and the class election and many more! Let me tell you about the book! The Star Darlings are learning more and more about Wishlings and wish granting. Libby, the ultimate people pleaser, is chosen to head to Wish World where she'll have to keep herself from trying to grant as many wishes as possible, even the smallest ones. Can she find her wisher and make it reality before time runs out? These are my favorite because you'll never know if they find their Wisher in time! Yet again, thank you for donating all these books. We have become smarter!

Dear Masons,

Thank you for all the books. One book I really liked was **JUDY MOODY Predicts the Future**.

I can calmly read this book during free time, recess, lunch, and even at home!! Like how in the first page shows drawings of the characters and what they do in the book. My favorite part of the book is how there are pictures. The pictures state what she does in her story.

It's cool how the characters all express themselves really well and how they feel. There also isn't a lot of dialogue and more description. Like that because they have different ways to state what they're saying.

What I really like about it is that they have these words that express their feelings. If it's "Disgusting, exciting, happy" the author uses more advanced words instead of boring words. It makes the book more interesting and teaches me new vocabulary!

That's all I love about this book! :) Thank you again!

Sincerely,

Dear Masons, Thank you for all the books you gave us. My favorite book of all time is the series, Diary of an 8-bit Warrior (8 book series) . My favorite characters are runt, stump, max, (all main characters of the book.) I love how it always changes the setting. For example, it always switches from the overworld to the nether. The book is mostly about adventure because they are always moving around the world for adventure. So that makes that series of 8 books my favorite (I also read all of the books from the series). Our school really appreciates all the books you gave us and spent a lot of money for. Thank you again!

Sincerely,

Vardan

Dear Masons,

Thank you for your generous donation to Coldwater. I love to read. The book you gave me is called Esperanza Rising. It is really good! It talks about how her life became from rich to poor and it even said in the book the rich person is richer when he becomes poor, than the person when he becomes rich. Esperanza had the same thing and that happened with Esperanza because her tio Luis burned her house down and she had to go to America. Also, her grandmother got hurt and had to stay at the servants house. Finally, Esperanza and her family went to America. Thank you so much for the book!

Dear Masons,

Thank you for donating these books. My favorite book is Dork Diaries. My favorite character is Nikki, and it takes place in a school. Nikki and Brandon (Nikkis friend) went to grab a cupcake, but ran into the bully. They ignored that it happened. After that, they found 8 puppies in a box. Nikki decided to take them home, but she didn't ask for permission. Later, the mom found out, but she was ok about it. I really like the pictures in the book it's very detailed. Thank you for donating the books to Coldwater and helping kids read more.

Sincerely,

Yazmine

Dear Masons,

Thank you for donating so many books, with so much money. Coldwater really appreciates your generosity. We really appreciate your books. But I really wish that you had some informational technology books like VR (virtual reality) and facts about the latest technologies like BCI (brain computer interfaces) or science books like how to build a dinosaur by Jack Horner, showing his plan on how he is going to make a dinosaur. Thank you again!

Dear Masons,

Thank you for the generous donation to Coldwater! I'm halfway to the donated book Squirrel Girl from Marvel. It's great so far. I love to read the book you gave me! My favorite book of all time is Green Eggs and Ham; what I learned was, trying new things isn't that bad at all! Do you feel good about donating books to schools? I love it when people donate books to schools; it helps us students learn. And the best thing, they might pass the book on and on and will be used for quite a long time instead in the trash or the dump! Once again, thank you for the donation!
